Dear Tushar,

Thank you for your continued support for our work. We're truly grateful for your commitment to the cause.

As part of our shift toward more sustainable practices, we have completely stopped the procurement of physical donor ID cards. This change is part of our broader effort to reduce environmental impact and streamline our processes through digital means.

The process of issuing e-cards is currently underway and may take a couple of months. We appreciate your patience and understanding during this period.

Rest assured that your contact details are securely stored in our database, and we will not hesitate to reach out to you if you are identified as a match for a patient in need.

Thank you once again for being such an important part of our community. If there's anything else we can support you with, please don't hesitate to reach out.

Regards,

DKMS Foundation
