TUSHAR THAKUR

AI GENERALIST | DATA ANALYTICS|BUSINESS INTELLIGENCE | AI AUTOMATION

LinkedIn - Tushar Thakur | artificial.thakur@gmail.com | Chandigarh, India

PROFILE INFO

MCA First-year student with hands-on experience in AI-powered web applications, automation workflows, data analytics, and business intelligence through practical projects and simulations. Skilled in Excel, Power BI, Tableau, Python, AI-assisted workflows, and dashboard development to analyze data, automate processes, and support data-driven decision-making.

TECHNICAL SKILLS

- **Data & BI:** Excel, Power BI, Tableau, Data Analysis, Dashboards, Data Visualization
- **AI & Automation:** Generative AI, Prompt Engineering, Gemini AI, AI Agents, RAG, Workflow Automation, Make.com, AI-assisted Analysis
- **Programming:** Python, C, C++, Java, JavaScript, PHP
- **Web Technologies:** HTML, CSS, Tailwind CSS, Responsive Web Design
- **Database & Backend:** MySQL, XAMPP, DBMS, Google Sheets Integration
- **Other:** Software Project Management, Research Skills, Presentation & Communication

EDUCATION

Chandigarh Univesity, Punjab
Masters of Computer Applications (MCA)
Mar 2021

D.A.V.COLLEGE, PANJAB UNIVERSITY, CHANDIGARH
Bachelor of Computer Applications (BCA)
Jul2023 - May2026

GOVT MODEL SR. SEC. SCHOOL, SECTOR 33D, CHANDIGARH
Senior Secondary (Class XI-XII) - IT
Jun 2021 - May 2023

CERTIFICATIONS

- **Data Analytics** – Deloitte Australia
- **Generative AI Master** – Outskill
- **Build with AI –** Google for Devs
- **Build AI Agent** – WsCubeTech
- **AI Tools Workshop –** Be10x
- **Data Science & Machine Learning Fundamentals** – HCL GUVI

LANGUAGES

- **English** (Professional)
- **Hindi** (Native)
- **Punjabi** (Native)
- **German** (Beginner)

EXTRACURRICULAR ACTIVITIES

- **UT-Level Chess Player —** Participated in regional-level chess tournaments and competitions
- **Cadet —** National Cadet Corps (NCC) & National Service Scheme (NSS)
- **Volunteer & Donor —** DKMS Foundation India and community blood donation drives

WORK EXPERIENCE

Deloitte Australia | DEC 2025 – DEC 2025
Data Analytics Job Simulation *(VIRTUAL EXPERIENCE)*

- Performed data cleaning, data management, and analysis using Microsoft Excel
- Applied AI-assisted analysis techniques to improve efficiency and insights
- Built interactive dashboards in Tableau for data visualization and storytelling
- Explored advanced BI workflows and decision-support analytics
- Communicated insights through structured reports and dashboards

PROJECTS

CAREERCOMPASS — AI-POWERED CAREER GUIDANCE & ANALYTICS PLATFORM | 2026

Developed an AI-powered career guidance platform with separate student and admin dashboards for personalized career analysis and recommendations.

- Built aresponsive web platform usingHTML,CSS, JavaScript,TailwindCSS, PHP, and MySQL
- Integrated Make.com workflows with Google Sheets and Gemini AI for automated data processing and AI-based career recommendations
- Designed student dashboards to display career roadmaps, skill-gap analysis, and personalized suggestions
- Developed admin features to monitor student submissions, analytics, and assessment workflows
- Managed frontend development, AI integration, automation workflows, testing, and documentation

CIVICMITRA — AI-ENABLED CIVIC ISSUE REPORTING PLATFORM | 2025

Built a citizen-first Progressive Web App (PWA) to report and track civic issues such as potholes, water leaks, and waste management problems.

- Developed an offline-first Progressive Web App (PWA) for reporting and tracking civic issues
- Built a responsive, app-like UI with dark/light mode using React & Tailwind CSS
- Integrated live location APIs and an AI chatbot to assist users during issue reporting
- Designed a hackathon-ready backend using Node.js & Express for complaint handling
- Led end-to-end frontend development, chatbot and location integration
- Researched civic feasibility and created a demo video and hackathon presentation

E-SUJHAV / SHIKAYAT—IOTCOMPLAINTSYSTEM | 2025

Developed a hybrid online-offline complaint management system using HTML, PHP and Arduino-based sensor integration.

- Implemented email alerts and ultrasonic sensor-triggered complaint detection for administrators
